SUMMARY

I deliver meaningful creative solutions using considered user-centred design, research and iteration.

EXPERIENCE

Graduate Game Designer

Halfbrick   August 2020 - April 2021

- Generalist designer in a small graduate team building various small arcade mobile prototypes. - Contributed to and handled core, economy, systems and level design of various prototypes and iterations. - Analysed market context and designs of reference games in detail to make informed design decisions and drive implementation, planning and other deliverables. - Managed and drove workflow and process changes in an agile development process as team Scrum master.

Application Developer

Australian Taxation Office   June 2019 - August 2020

- Front-end developer working in Digital Delivery Solutions (DDS). Developed and refined existing and new single-page applications (SPAs) in Javascript (Durandal, Knockout.js) for ATOOnline and ATOOnline for Agents, wrote both automated test cases (C#, Selenium Framework), and worked in an agile Scrum environment. - Systems Analyst - lead and coordinated complex testing strategies and efforts, improving and establishing testing standards while ensuring complete business coverage, and documented technical and test details for items such as bugs or new features. - UX champion - UX team's point of contact within my team. Designed new pages in Sketch with a consideration of technical, business and web requirements. - Scrum Master - Coordinated team meetings and feature discussions with stakeholders, cultivated culture, completed capacity and feature documentation, resolved blockers, bugs and dependencies, while acting as an interim Scrum Master.

Line Cook

Vapiano Australia   May 2017 - May 2019

Worked as both a cook and an assistant cook (wingman) in a fast-paced, highly communicative, team-based environment. Responsibilities involved getting dishes out on time, helping lead the kitchen, and helping customers. Other responsibilities involved opening (setting up) and closing (cleaning) the kitchen, as well as occasionally covering other tasks, such as washing the dishes.

Data Entry Assistant

Your Rugs and Flooring   2014 - 2016

Family Business Handled data entry, small technical jobs as well as other tasks (organising

displays, hanging up rugs)
